Lydia,

Draft SN (RI/FS) Ltr for International Paper is attached. The attached draft does not yet have an enclosure for the attached site aerial photo. If OK with you, I'll add it as enclosure 9 to the attached letter. After I get OKs/recommendations from Stephen, Barbara, and yourself I'll make the minor narrative changes needed for the SN (RI/FS) Ltr to McGinnes Industrial Maintenance Corporation.

FYI I've attached the Falcon Refinery Site SN (RI/FS) Letter that I used as a guide to prepare the Draft SN (RI/FS) Ltr for International Paper.

Tomorrow morning Linda will review, insert page numbers, and get document ready for routing.

Comments/suggestions?

Stephen,

I've updated the list of names for courtesy copies. Do you want to eliminate or add more names. At Ms. MacMullin's request (USF&W), I've already dropped her name from the list of courtesy copy addresses)?

Stephen and Barbara?

Comments/suggestions?
